10. FAQ

(1) Is it possible to use forms of the past exams such as reference or statement of purpose?

→No. Please use the latest versions updated each year.

(2) If I attend a college or professional school after graduating from high school or have already graduated, who should write the references and which transcript is required?

→The references should be written by two full time teachers at the most recent school institution (this does not include vocational schools, cram schools or Japanese language schools). Transcripts are required for all school institutions (from high school onwards) where formal qualifications have been attained. For example if a student has graduated from a high school, a two year college course and currently studying a four year university course, transcripts are required for all three institutions. However, the references should be written by two full time teachers at the university.
